

On-line distance learning course to acquire professional qualification in EcoJob-AP

Introduction

The EcoJob-AP on-line course was designed to encourage the trainees to use the information and communication technologies (ICT) and to facilitate them to acquire professional competences in ecological agriculture.

Beneficiaries

Agrarian sector: farmers, managers, specialists, experts from government and non-government organizations, unions, associations, foundations, etc.

Educational sector: students from colleges, universities, vocational schools, training centers, etc.

The EcoJob-AP on-line course was designed and adopted in web-format by experts within ComuNET Education Solutions /the Spanish partner/ using their NETCampus platform.

The course content is in a format that could be easily adapted to other platforms or e-learning environments, which meet these standards. It will facilitate the continuous use and development of the EcoJob-AP on-line course in the future. NETCampus, the e-learning platform is a product certified by ADL under the SCORM 1.2. standard.

№	Modules subject area	Authors
Module 1	Organic Principles	Charlie Wannop
Module 2	Organic Standards	Anna Bandlerova Loreta Drenkova Jennifer Fulton Ian Duff
Module 3	Marketing organic produce	Charlie Wannop Bas Timmers
Module 4	Legislation	Anna Bandlerova Loreta Drenkova
Module 5	Soils	Stergios Tzortzios
Module 6	Organic crops	Rada Angelova Vladislav Popov Mariana Ivanova
Module 7	Organic animals and fodder crops	Martino Cassandro Roberto Causin Luidgi Gallo Paolo Sambo

Structure of a module

- Module Title and Number
- Module Size

- Module Level
- Module Aim and Description
- Recommended Prior Knowledge and Skills
- Core Competence and Learning Outcomes
- Content Outline
- Guidance – delivery methods, resources required, assessment methods
- Bibliography
- Glossary
